#### WHERE HAVE ALL THE GOOD **IDEAS GONE?**

I've been regulerly visiting the arcedes for years, and have pleyed hundreds of coin-ops from the original Space Invaders to Space Invaders '91, So why am I telling you this? Well, during thei period there have been planty of new, original ideas and some truly putstanding games. However, over the lest year or so there's been very little to get really excited about. The arcade industry seems to be running out of energy and ideas.

We've had an endless line of horizontally and vertically scrolling shool 'em ups based around the power-up/end-of-leval boss concept. I'm an ardent blasting fen, but must admit to becoming sick to death of playing the same old type of game Coin-op designers are just not using their imagination. Don't they realise there are other things they cen do with the shoot 'em up genre such as use two-way scrolling anvironments like Detender employ Commendo-style

scenarios, enhance the single-screen Galaga-style concept, re-jig the Zaxxon viewpoint, heve a first-person perspective of the ection Instead of third person, improve the Smash TV gemeplay, utilise 8-directional side-on or overhead views, or even bring the old point 'n' shoot Missila Commend style game beck for a re-run?

It's the sems with platform gemes and best 'em ups. Where ara the new ideas to keep players interested? Manufacturers all seem to be playing it sale, end are not trying anything new They just constantly produce the same games with slightly differant graphics and sound in the hope that people will keep on pleying.

Sega are pushing the boundaries of technology, but even they seem to be short of ideas. Radmobile is just another race geme, albest with incredible graphics and sound G-Loc is Afterburner with knobe on, end their only real piece of originality this year. Time Treveller the taser disk game, is a dire piece of enterteinment which looks Interesting but has ebsolutely zero pleyability.

The only games I've played for any length of time recently are Streetfighter II (not particularly original, but at least it's superbly executed and has tebulous playability), Remparts (that's differentl), Smash TV, Med Dog McCree (a laugh end a half) and Don't Pull from Capcom. Nothing else springs to mind Immadiately and when you think how many machines appeared last year, it's a sed stete of effairs.

Perhaps I'm being unlair? I'd like to hear your opinions on this. Maybe you've got some suggestions of old games and ideas that you'd like to see brought up to date, or perhaps you completely disagrae with me and think that the arcade industry is coming up with some great games. Write in and I'll print all the best tetters I get on the subject.

JULIAN "JAZZA" RIGNALL The biggest trouble Jazza ever got in when he was at achool was during one particular mathe lesson. Naving walked into the classroom, he proceeded right up to the beck of the room to his desk. While his teacher. Mr Prosser, had his back turned, the cheeky acamp divad out of the window, ran around to the door and walked through again, much to the amusament of his chums. Ha did it egain, with even more hilarity. But the fourth time proved his undoing - the headmaster was walking by as he dropped out, and he was leed oil to tha headmester's study for a bit of cane-ralated hanky apanky.

RICHARD "MORE PHONE FROLICS" LEA OBETTER Once again, the telephone is at the root of Richard's svil. This time it was modem-releted hi-jinks as Richard and his wicked chums used the school computer system to call all sorts of bulletin boards around the world. Their tayourite was in New Jersey USA, but the record price tor a single call was set on some kind of an 0898 system at peak time, which totalled a messive £28.00! # YOU TOO CAN ENJOY THESE

# **NEW MEGA ACTION GAMES IN THE**

# **COMFORT OF YOUR OWN HOME**

Hold on to your consoles!

And get ready for the roughest, toughest and fastest games yet.

In EA Hockey, from the team that brought you John Madden American Football", you get no points for being nice. So body-check, punch, slash and trip the opposition into submission. Get the puck into the back of the net or between the goalie's eyes, it's all part of the fun.

Should you find the rules an unnecessary hindrance, simply send the referees off to the sin bin and create even more havoc without them.

Rules won't worry you at all in Road Rash, the wildest action on two wheels. There aren't any.

There is a race. Across 5 highways from the Sierra Nevadas to the Pacific coast. But it's your skill in kicking, punching and clubbing all-comers out of your road that really counts.

As a bonus, if you get to cross the finishing line first and more or less in one piece, win cash and upgrade your bike to an even more ludicrously fast machine.

Road Rash and EA Hockey are just two of the newest games for your Mega  $\mathsf{Drive}^{\mathsf{m}}.$ 

Also available soon from Electronic Arts are:

The Immortal $^m$ , Fatal Rewind $^m$ , Shadow of the Beast $^m$ . Starflight $^m$  and Dark Castle $^m$ .

Electronic Arts are soon to release the first ever flight. simulator for the Mededrive F-22 Interceptor (for it is he) allows you to lirmly grip the joystick of a Lockheed F-22 Advanced Tactical Fighter and fly it in over 100 different missions. The graphics are tast and smooth, and there's even an option that allows you to create your own missions - greal, eh? As usual, MEAN MACHINES is hot on the fail of this one, and well bring it down in time for review in our Christmas issue

brillent arcarde conversions to this country. The deal is immediate, and before Christmas Ms Pacilian, Klax and Ramparts will be released on the Meaier System, as well as Hard Drivin' on the

#### STORY

Once agein, evil creatures have taken over the fair and pleasant lands, terrorising people into submission razing buildings to the ground for no good reeson and even setting fire to pegale's underwear for the comedy value alone

Enter the fearless Goeman Warrior - a man with a mission. Those marauding creatures have butchered some of his best friends while he was away on holiday and he s more than a bit upset. Goeman decides to end the evil ones' reign of terror there and then, and bring a new ere of happiness to the land. What a pent. eh?

This generally involves travelling around nine areas packed with evil enemy sprites who are intent on rapino and pillaging the occupied villages. With the aid of his massive Battlestick, it's Goeman's job to rid the village of these foul demons by swiping them around the choos and picking up the cash and other items they leave behind.

However, not evaryone that Goeman encounters is evil. Indeed, some of the fair end gentle townsfolk ectually aid Goeman in his guest. The warner lad is elso capeble of entering shops and gaining useful items, provided he can cough up the necessary dough

There is a long quest in front of him, but Goeman's a REAL man, and won't give up until the last of the evil ones has been successfully booted out of the country!

#### THE EXPLORATION BIT

There ere three lypes of hats and armour, each absorbing a certain number of hits from the nasties. #### BONUS SUB-GAMES

Hall the fun of oleving Goeman Warrlor is in locating the vest amount of bonus sub-gemes in the game. In level one, you can play a mole bash game where moles pop their heade out of holes end you smash them over the head with a massive mallet. Other dalights include a Breekout game end the entire first level of Nemesta - end it's identicel in every raspect to the arcede original!

#### COMMENT

At firet, Goemen Werrior tooks pretty dull. The only thing you have to do le etrut eround the scrolling evele diehing out steff-reintad deeth to the enemy sprites. However, once you've ectuelly got into it a bit, that becomes just a emell pert of the geme. Thara's pletform exploration sections in there se well, along with some brillient end-of-level bosses. The

grephice ere tremendoue. The Jepenese excel et producing cutesy-etyle gemme, end Goemen must renk se one of the finest exemples yet, with brillient sprites and varied beckdrope. The sound is top hole too, with some funky Jep tunes to swing your pents to. But it's going to be the veet quest that keeps you glued to the Femicom. You might heve completed eomething like R-Type on your third go, but Goemen offere meny days of frustreting (but yat completely addictive) gemeplay. Yet another

brillient game for the Super Femicom!

about!

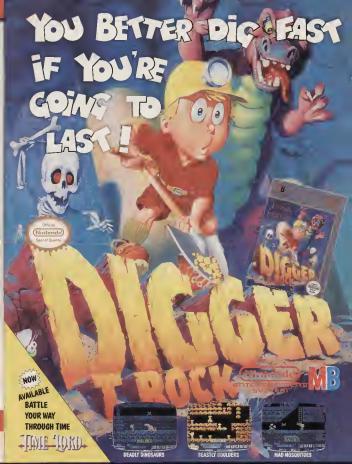

Even though Goamen Warrior has a lot of Japanese text, if doesn't stop It from being incredibly addictive and enterteining. Tha graphics ere absolutely stunning. with beautitul sprites and backgrounds, and the sound is utterly incredibte, with the some of tha best music I've heard on a consola gema - the sheer quality

and varially la outstanding. It's also JULIAN great fun to play, with tons of things to discover hidden behind the doors of the houses in the villege exploration sections - there's a mote bash game, the entire lirst level of Nemesia (and it's arcade parfactl), a Breakout gama, a horse recing game, a couple of wairdo fruit

machines... and that's only on three of the levels I've visited! The arcade platform sections are really superb, with real tests of skill as you battle through all sorts of hazarda to reach the wild 'n' wecky end-of-level quardlan - the giant floating monkay-clown lace is my parsonel fava. With waaks of potential challenge end enjoyment (and i

mean that literetty), Goemen Werrior Is a must for Supar Famicom owners.

#### SADIST!

Dear YOB.
I recently played on a game on the I recently played on a game on the Amilgo called Reel in Flathing which was a flathing game (aurphos, surprise), I really anjoyed it but the problem is I haven't got an Amilgo, I'va got so Spectrum and a Nintando NES, so I'va got two questions for you.

I've got two quentions for you.

1. Are there any games which involves fishing for the Nintendo NES or Spectrum.

2. Here have world the pile to

get them and where? Leatly if you don't publish this YOB: I saked games guru Jaz about fishing games, and he said that there's an anoient Spectrum gama (about five yaara old) called Jackle Charlton's Metch Flahing (but he doesn't know where you can gal it from these days) and that two fishing games were released on the Nintendo in America recently - Black Bass and Slua Marlin. But he coya thay're both as boring and dutt as the "reel" thing. Anyway. who's the biggest low-lite you spong-featured acrote? Lovely old me, or a sed, perverted where the participant tricks poor, unintalligant creatures into awallowing sharp metal hooks, and then pulls them out of their natural environment while the hook is still ambadded in the coof of their mouths?

#### A SAD CASE...

Dear YOB, One day The Mario Bros decided to visit Ceptain Skyhewk and Luigh gesse vasactomy voltage and the minument, send them in volt's SizzLinG in RGANIC OFICANISM MAIL SACK, MEANSM MACHINES, PENOR COURT 30:32 FARRINGDON LANE, LONDON, EC1R 3AU. They set out early as the weatherman had predicted Days of Thunder. On the way some Bad Dudes armed with Bleden of Steel attempted to Rush in Attack them. Mano reached for his fronsword.

but he had forgotten it. Fortunetely a Wild Gumman wee passing and he would have used hie Kung Fu to defeat the Bad Dudes. Further along Hogan's Alley they asked a Paperboy for directions. He directed them to a perty at

Castlevania. This gave Mario a chance to ehow of his latest hoavy Metet Coar. Fel old Duck Tafes and get pissed. After the party they nicked a Real Recer and did some Turbo Racing eround the Track and Field 2 before returning home and weking up with a hangover.

THE END.

Richard Newbold, Alvaston

YOB: What wee the point at thet, eh?

The only means of identifying the erdet here is the eignature, "STU". Remember to put your name on the back!

From the same guy who sent in last leet month's Gemeboy pic.

#### ARE YOU CALLING MY AMIGA A NANCY BOY?

Dear YOB

I would like to congretulate you on how you hendled KEY (the boy with spestication in his blood) THRNER in issue 10

I was very happy with my Amige but the graphics and animation on games were just getting worse.

So Mr Key Turner, if you are reeding his months issue of MEAN MACHINES, which you bloody well should, YOB has not got dirty farty points, you are a spaz and the Familicom is ACE! Scott Lessie, Aberdeen YOB: Well, that's sattled that one. I'm sure we'll get no comeback one in a subject...

#### SONS OF MARY WHITEHOUSE

Deer Mean YOB,
On e Saturday 3rd August, we
discovered in a certain American
console magazine on e double
page spread, an advertisement for
Responsitifs Stompland

Il stated clearly final Stormlord has been temporary cammo monratal and has yet to receive a rating. Oue to this, we think Plazorant are eventually going to you the Mergadhine at bad name. Their previous game, I echnocop, as very poor example of what the MD is capable of. We also found out that I echnocop got a 12 certificate. Razorand are using violence and gone to sail that if

tasteless and tacky products.

Believe us, Razoraolt will be receiving a lot of letters from the parents of younger Magadrive owners. Thanks for fistenino.

Dânel Toporovak, Jason Banse, YOB: Oh dear, oh dear, oh dear. The whole violence thing is Rezoracht's markeling plan, and you fell for it like the self righteous gils you are. They thrive on people like you shouting with indignation, saying what edigrace it all is then other people, who want to see what the fuse is about, will

go and buy their gemes Razora oft know that Tachnocop is a pile of old loss, and use the gore factor (which I thought wea laughably stupid anyway) to try and sell the game, Just Ignore the gore and people will tanore the game.

Cear Mean YOB.

You wouldn't dare publish this letter because you're a chickan, you're so chicken, you definitely you re so diticken, you detinitely dare not publish this lettler. PS. I've got a Super Famicom. So.

YOB: Yeah, and you'll also have a very bruised see once I've' finished kicking you up and down the street. So there.

Go not to the top then go left until you can choose up or down. Choose down then cerry on left then you find yourself near a drop. Drop down there and lake the second on the right then go right then drop down straight to the bollom. ELUMENTAL MASTUR GAIN GROUND

Here's some sound advice for Robocop on the Gameboy courtesy of Alistair Coakes from Epsom, starting from level two

On level two, peuse right at the beginning then aim tor ED209's right etbow. Shoot about five times tast then peuse re-aim and shoot again. Do it all again and again until he finally dies. If you're good you should be able to do it in under seven seconds

Level three is quita easy so you can either complete, and you need sarious mental aid if you're unable to complete this steps unaided

Levets tour and tive shouldn't pose any problems if you've managed to get this far on your own

Than on level six equinst ED209 you should have snough energy to kill him. The best method is to walk towards Dick Jones as quickly as you can, then run back towards the lift again after Directive 4 has had its drematic effect, and ED209 will follow you. When he is about an ench from you on the screen run into him end press buttons A and B together to punch him in the head Don't bother trying to dodge his bullets but keep on punching his head. After three short retreats, ED209's head will explode and you will not have to escape trom OCP

By now you should be on level eight. Here you can pick up a lot of energy so about those targets as tast as you can tor a high score end loads of energy

It you're having problems on lavels 1, 3, 5, and 7, check out this cheet First of ell, find some beby food in e jer Let yourself be shot, but watch the power bar, and when it reaches rock bottom and Robo'e crauching over to die, jump antothe baby tood. You should be teleported to the next level

- nfirm or deny tha rumour! Since his first videogame eppearance in the 1980 arcade hit Donkey Kong, Mario has gone from strangth to strength, starring in a string of coin ops and oging on to appear in his own series of Nintando carts alongside his brother Luigl, as well as making guest appearances in a veriety of other gamas!

In fact, he's become so populer that there are now Merio TV cartoons, an entire Mario TV show and, coming soon, e Mario movie written by Barry Morrow (who scripted Rain Man) and starring Danny Davito as the man himself! Where will it end?

#### DONKEY KONG: THE REGINNING

Mario's videogama debut was way back in 1980 in a strengs sounding coin- op called Donkey Kong, In It the intrapic here in red disograms has to rescue a gift who has been tidnapped and whisked to tha top of en untiliniabled systemper by a gifter King Kong-sized gortta. There are thus arevent of pisitions motion, and to clamber up to the boy of each braces! Although it's e simple game by today's standards, twelve years ago il took the sroada world by storm!

#### THE LAST AND FINAL DONKEY

Finally, in 1984 came Donkey Kong IV, a return to the traditional platform and ladders action of the original with Mario acrambling up rempt to defeat Kong. During its testing period is wasn't deemed apontscated arough to wow pursters, and the machina never made mass circulation. But was that the end of Mario? No. -thick was only the beginning.

#### HAND-HELD MARIO

## MARIO BROS

Merio bounced back from his Donkey Kong IV failure (long-lost brother Luigi in tow) in ecolin-op called Mario Bros. It's a one or two-pleyer game in which the brothers patrol e series of pletform acreens and attempt to cleer it of baddles which include turdles, files. crabs and snowmen, which emerge from pipss. a bit duff, but it's e truly excellent geme, especially in two-player mode where there's potential for some amazing battles!

#### MARIO GETS SUPER

in 1985 Mario starred in his bigginst and monisuccessful game yet - Super Merlo Bros. The scrolling platform gama concept was pushed to its limits as Meno battled through eight huga levels, each split Into four sub-levels on the way to rescus Princess Toadstool and har friand Mushroom from the clutches of the evil Koops and his clen. The gama was a revalation. Pecked with hidden teatures, superb grephics, one of the catchiest soundtracks of all tima and sporting superlative gemapley, Japanese players want Mario bonkers! Over 20,000,000 cartridges were sold and Mario became an instant auperstar. Exactly the same thing happened in America when the game and the NES mechine was released in 1987 - another 23,000,000 copies of the gama were sold and Mario became a household name!

#### THE SEQUEL

With Mano lever swaeping the world, Super Meno Bros It was raleased in 1987 and again soid millions Feetuning four different cherecters, Mario, Luigi, Princess Toadstool and Mushroom, the player once more had to bettle against the evil Koopa and his ermy of evil meanies! The gamepley is very similar to the original Super Mario, but has new twists and tweaks, such as being able to pick up and throw objects and baddles! But the best bit in the entire geme is the fentestic end-game sequence - one of the finest yet seen in any videogamal

## DOCTORIN' THE MARIO In 1990 Mario starred in his most unusual game yet.

Released on both NES and Gameboy, Dr Marlo surprised the world. It ien't a scrolling platform game cross between Tetris and Columns. And it's just as addictive too (the NES version scored 85% and the

If you want to play Mario 4 you have to be Mario 4 you have to buy a specially imported Super Famicon - however, if you're prepared to wait, it's rackoned that the machine will be officially available in September next year.

#### MINI MARIO

Mano's next eppearance was in 1989 in one of the first games to appear on the newly-released Gamaboy. Spread over 12 lavele, Super Merioland is similar in concept to the original Super Mario gama, but has new twists in the form of mini-shoot 'am up sectiona. Il wes enother instant hit and has sold over 5,000,000 copies vorldwidel

Being the alt-round good guy and complete hero that he is, Mano (and In two player mode, his bro' Luigi) decide to sat out on a quest to give each of the Koope kids a good kicking, thus saving Mushroom World from a fate worse than travelling on British Rail on a regular besis.

Each Mushroom World is guarded by an evil Koopa child, and it's Merio's job to complete each level of the world until he reaches the Koope Kastle. In the castle, Merio is pitted against the Koopa Kid, and once he's defeated the evil little blighter, it's time to visit the next world packed with all manner of even more terrifying hazerds

The object is to reach the end of world eight where Boweer ties in wart, ready for the one on one tinal battle with Mario himself

## AND JAPES

Should Meno meet up with one of the friendly Mushroom people, they give him a useful item However, being the cunning sort of people that they are, they like nothing better than forcing Mario into leking part in a bizarre sub-game where he has to

In this sub-game, Mario turns over two caids and hope to get a peir. This earns him the object. The lables aren't random. There ere only eight, so you could ectually "map" them, or weit for a future MEAN MACHINES lips section where we'll be revealing the

choose? You could get a great object for your troubles, or you might choose a completely pathetic itam that's completely hopeless! The choice, as they ay on Blind Dale, is yours.

Line up the three sections exactly to earn many bonus points and lives. There's definitely a knack to this, and once you've tearnt it, you rake in those bonus lives like thara's no tomorrow!

#### TRAVELLING KOOPAS

Some of the Koope Kids are doller around the man end trevel ebout, causing some aggro. Mario can rendezvous with these critters end beat them about a bit, thus gaining another useful item

The map screen is where Mario chooses which level to visit next. You cen go wherever you want, although your choice is limited because some levels are blocked off and items from certain levals have to be collected in order to move the hazard. For exemple, it there's a pile of rocks blocking your way, use the hammer to knock the obstacle away! ttems ere selected with the A button, and these can help you in your selected level.

The Ferreri's handling is a tad bizarre. It

Very, very easy to complete in all difficulty settings spert from the herdest.

A pretty good conversion of the coin-op, but disappointing overali.

Outrun might be en old ercede clessic, but compered with other Megadrive versions of more up-to-dete ercede coin-ope like uper Moneco GP end Super Heng-On, and even non-coin-op

However if you re completely new to the sport and haven tigol a clue about the rules of American Foolball here's a quick run down of the action. Points are scored by taking the ball to the opponent s end of the pitch and thus scoring a louchdown. However should the ball hit the ground before the louchline is reached play is stopped and the offensive learn regroups to try again. Their short term objective is to reach the next ten yard line, which once crossed gives them four more chances ( downs ). If they don to make it after the lour attempts, the defensive learn adopt the offensive. After a touchdown, an extra point is earned by kicking the ball over the opposition s cross bar. The winning learn, unsurprisingly is the leam that scores the most points after four quarters of play

There are a variety of Thumping, rumping Theme Tunes to choose from and more sampled speech than you can shake a slick at and if you don! like the music, there is an option to turn it off. So, all in all, a bit of an aural least. Gameplay is as you would expect, the standard strategic layout a la Maddens, and there is a very comprehensive list of possible plays. Pulling these into practice is a doddle and the menus are actually a little triendlies than in Madden's. Sadly however, the game has a rough, unlinished feel to it. The response from your players while actually running or passing is a tillle poor. The goll-like syslem used when kicking for extra points is unnecessarily fiddly and the overall ellect is a little lacklustre. At the end of the day, why buy this when you could have John

### hours Thundardores lade are back, and this time they're laking no crap, expecially from the manage Orn Empire tesk Intro that's taken over a whole sector of Earth Space. Since their last dangarous advanture on the Megadrive they've unoraded their short to corru even more wearings and

thus give those Orn scum even more opportunity to have their hetterne soundly threshed out of this dimension Holika Thunderforce III which was for the most nort waved from above and scrolled in eight directions. Thunderforce III is a more traditional B. Type style horzontelly scrolling shoot 'em up. As usual for this type of game, it teatures plenty of boll-on

wearing and massive end of level hosses! The object is pretty simple start blast anything that moves, or anything that looks as it it's about to and it it isn't blast it enyway because it might. Just be sure to quide that ship out of the path from the enemy liak. because those slimy Orn beings don't take kindly to you destroying all their plane for cosmic domination.

The action moves underground as the Thunderforce fighter takes on the might of the Orn Empire's underground continuent

# RGET NT LOBSTER

Claws of doorn are out to crush your Thunderforce fighter courtesy of this grant tobster. Just shoot out its eve and it's history

Your eyes may be screwed up by the bizarre background tire effect, but you still have to watch out for the sudden volcanic eruptions AND the enemy craft!

Pretty serious kit, eh?

The Orn Empire have certainly pulled out all the stops! This beastie is one mean mutha, but seek out and dastroy the search rader to bring it down!

# MEGADRIVE

Thunderforce II was reviewed way back in issue one of MEAN MACHINES, where it received the handsome mark of 82%. It's different from this social in that the ection is divided between overhead scrolling action and the same lyne of horizontally seroling blashing action as soon here. If you're after a good blasi it's worth a look, allhough you're belier off oping for a later game like Hellfire or Gynoug - or even Thunderforce IIII

h- Thunderforce has picked up a protective

Thunderlorce III certainly gives you the looks to get the oh done les it were. Included in the Thunderforce armoury are the likes of bog-slendard pea-shooter weapons nowerful beam weapons amund-hugging missiles and alien busting ripple lasers. Once collected the weapon remains with your craff and can he selected at will. The Thundarforce ship carries five weapons at once. However, should you lose a ship you stand to lose one of your weapons - probably the one selected when you hit the dust. Readers of the Tips Section will probably know of the cheat that endows our fighter with all of the wearons available

The alien carnage moves to the ice world of Ellis. where the explosion-laden action takes place above a fast scrolling mountain range. The landscape's lethal to the touch, so watch it

As you can sae from the picture. this is seriously heavy kill out lo dust your monkey ess Concentrate your fire on the fort's control unit to destroy it.

### COMMENT

Although it's been available on import for over a year. Thunderlorce III is still one of the Megadrive blasters around, From the shimmering flery backgrops of the volceno planet to the super-smooth parallax scrolling on the Ice world, it is a graphical treat. il s not just a pretty face, either,

Thunderforce III is lough and AN challenging. Obviously not on the easy teval - any half decent blesting lan should be able to shoot their way through to the end of the game in a few sessions - but on the more difficult levels, where the action is bonkers and you have to fight through a constant barrage of bullets and baddies! If you relatter a good shoot 'em up, check this out. Along with Helifire and Gynoug, it's one

of the best blasters available on the Megadriva.

# NINTENDO

The underwater world of Seiren ie the Thundarforce lighter's next stop. The tighter's handling is affected ? The rising bubbles, so bewere!

# R CORETE IG FISH

The Orn Empire is laying on the agua-enemies thick end tasti Just like the Grant Lobster, the King Fish is dealt with by shooting its eye out

This forest world should be your first stop. It's a relatively short level shrouded in heavy follage that

contains some hidden power-ups.

## COMMENT

demended nurchees Well. that was over a year egg. Since han Thundadores has aged quite a

hit and isn't nulle as good ea some of the shoot 'em ups that tollowed (Gyngup and Hetttire spring to mind). There's no denying that graphical quality of the game still remains superb. and the sound is pretty good. but it's glayability thet counte, end though Thunderforce is good, it could have been better. People out for the best blest on the Megadrive should go for one or the other of the names t mentioned earlier, but if you can't get your hands on either. ### DEBACLE

At the recent press launch of Gremlin Graphics rether excellent sold acreen race dame. Lotus II the assembled collection of journos had a good level at the expense of Gemes-X men. Hugh Gollner, Part of the dev involved a two-never head-to-head challenge. rece where the press people could play the game ageinst one enother. Our man Jazza Bionall squared up with the boy Gollner end both roared off. Within a lew seconds Gollner was cornering around the track and benging off obstacles in a tamble display of driving, and within 30 seconds he was out at the race But even though his portion of the screen went blank. he carried on lwitching his lovetick and stering at the screen as though he was still playing. After a few minutes of this shembling debecle, the sad fellow suddenly cottoned onto the fect that he was starred et Jazza's screen! And while our brave hero whizzed onwards to victory. Hunh stonked around in enembarrassed strop! Ooh

# US GOLD KILL JOURNOS

There were more hi-links at another recent action-cacked gress launch, this time appropried by US Gold. A humunoously fun time was had by all, as teams of journou tried out jet ski-ing, weter ski-ing and canoning, before being gulled around a lake on e large inflatable sausage (oo-er) by e young sadistic lady in a very fest epeedboet whose sole objective was to dump the poor sape into the drink ee often as possible - and she certeinly did! In fact, the ead EMAP lot were thrown off their sausage so violently that Frenk O'Connor of CVG ended up having en evening's worth of ventilator fun in bosoital. Julian Watshem of The One had to have effiches efter cutting himself on a submerged object. CVG's Paul Rend (who won the Spacca of the Gay Award) putted e muscle end Richard Leadbetter had en unfortunate collision with Jazza's knee as they both flew into the eir (he ended up with a huge lump on the back of his head)! But they still enjoyed themselves!
